

Kia Ora Koutou

Growing up in Riverton/Aparima meant many wonderful experiences – the most precious being able to accompany my Tāua (Ngai Tahu grandmother) to choose the harakeke (flax) then taking it home and watching the Rongoa being prepared.

From that early age of 3 ½ years I learned alongside my Tāua and Pōua.

Today I bring you the additional experiences of many more years of study, Clinical practice and research in several health modalities such as: Herbs, Homeo-botanicals, Reiki, Mirimiri, Massage and Rongoa etc, as well as Numerology, Intuition, Good Grief, Pain and Stress Management and other Healing Arts.

A genuine interest in people in alternative health choices in Holistic Healing – for body, mind and soul-spirit (Taha Tinana, Hinengaro, Wairua) also stirs my passion for whānau, gardening and for the environment.

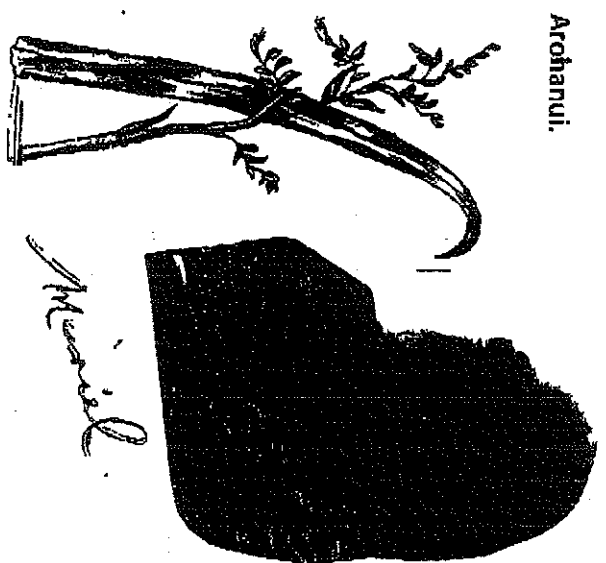

A back ground in nursing, social work, community and iwi development hand in hand with continuous study and part-time clinical practice led to the 1990 opening of my own clinic DIOSMA House. In 1995 I was made a fellow of the Homeoebotanical Institute of NZ.

I personally blend all preparations (none can be purchased over the counter at Health Shops or Pharmacies), they are non-addictive, suitable for all ages and generally safe to take even with most other prescription medicines. I willingly work with other health practitioners, maori students and support other whānau through Rongoa workshops and Marae based wanaka.

Clients/Patients come from all walks of life, often after trying many other treatments, orthodox and alternative. For there is no 'one way only' to good health.

"Guaranteed Magical Cures" are not offered at DIOSMA House – but for your health and well being I welcome you and commit to working with you to support your body's own healing efforts.

Arohanui.
